

Request for Infection Prevention to Save Your Life and Health

- ◆ Wash your hands frequently
- ◆ Wear a mask
- ◆ Avoid crowded places
- ◆ Practice social distancing
- ◆ Check your health condition & body temperature every day

For those who have symptoms such as fever or cough, and are worried that you may be infected with the Novel Coronavirus,

(1) First, call to consult your doctor or medical institution near your place.

(2) If you cannot decide which medical institution to consult, please contact Local Call Center below.
